

Kabir Singh

AI Prompt Engineer (Fresher)

kabir.singh.ai@email.com | +91 90123 45678 | Delhi, India | [linkedin.com/in/kabirsinghai](https://www.linkedin.com/in/kabirsinghai)

PROFESSIONAL SUMMARY

Recent graduate passionate about applied AI and prompt engineering. Strong foundation in NLP concepts, LLM behavior, and prompt design patterns gained through academic projects, internships, and self-directed experimentation with GPT, Claude, and open-source models. Eager to bring structured, evaluation-driven prompt design to a product team.

SKILLS

Prompting: Zero/few-shot prompting, chain-of-thought, role-based prompting, prompt chaining, system-prompt design

Tools & Platforms: OpenAI API, Anthropic Claude API, LangChain, Hugging Face, Streamlit

Programming: Python, basic JavaScript, SQL

Concepts: LLM evaluation, hallucination mitigation, RAG basics, embeddings, vector databases (Pinecone, Chroma)

Other: Git, Jupyter, basic API integration

INTERNSHIP / ACADEMIC EXPERIENCE

AI Intern | Sparkline Analytics (6-month internship) Jan 2026 – Jun 2026

Designed and tested prompt templates for a customer-support chatbot, improving first-response accuracy from 68% to 84% in internal evaluations.

Built a lightweight prompt-evaluation harness in Python to compare model outputs across prompt versions on a fixed test set.

Documented prompt-design guidelines adopted by the 4-person AI team for future chatbot features.

Final-Year Capstone Project | Own initiative, academic project Aug 2025 – Dec 2025

Built a RAG-based study assistant that answers questions from uploaded lecture notes, using Claude API + Chroma vector store.

Iterated through 40+ prompt variants to reduce irrelevant/hallucinated answers, improving answer-relevance scores by 35% in manual evaluation.

PROJECTS

Resume Screener Bot — Prompt-engineered pipeline that ranks resumes against a job description and explains its reasoning.

Prompt Pattern Library — Personal open-source repo cataloguing reusable prompt templates for summarization, classification, and extraction tasks.

EDUCATION

B.Tech in Artificial Intelligence & Data Science — Delhi Technological University (2022 – 2026)

CERTIFICATIONS

DeepLearning.AI — Prompt Engineering for Developers

DeepLearning.AI — LangChain for LLM Application Development
